Professional development and graduate student courses are run from time to time, with a number of courses provided over the last several years [1]. I2S News and the LinkedIn Group [2] (Global Network for Research Integration and Implementation) provide avenues for alumni to stay in touch [3]. There is an active network of alumni from the 2009, 2010 and 2012 leadership programs on Bridging the Research-Policy Divide [4].
