Welcome to the first issue of I2S (Integration and Implementation Sciences) News!

The aim of this newsletter is to provide regular updates about resources for researchers who investigate and help tackle complex real world problems, by:

- Synthesizing knowledge from different disciplines and stakeholders,
- Comprehensively understanding and managing unknowns, and
- Providing integrated research support for policy and practice change.

Our focus is on these methodologies rather than the major social and environmental problems they are used to address.

Each issue will feature concepts or methods relevant to I2S – either a useful compilation or a single tool of note. Our long-term aim is to build an extensive collection in order to make it easier for investigators dealing with challenging social and environmental issues to identify the full range of methodological options and to use those most appropriate for their studies.

We also provide information about journals, professional associations & networks, and conferences where researchers can report their methodological findings, as well as interact with like-minded peers.

The intent is to highlight selected resources from a growing repository available at: [http://i2s.anu.edu.au/resources](http://i2s.anu.edu.au/resources).

We welcome your contributions!

Gabriele Bammer and Peter Deane

FEATURED METHODS COMPILATION

Detail: "The Overseas Development Institute, as part of its Research and Policy in Development (RAPID) programme, has been looking at the links between research and policy for several years... This handbook presents work-in-progress on tools for policy impact, specifically geared towards the needs of researchers. The tools are grouped under the headings Research Tools, Context Assessment Tools, Communication Tools, and Policy Influence Tools".

FEATURED JOURNAL

Group Dynamics: Theory, Research, and Practice

“*Group Dynamics: Theory, Research, and Practice* publishes original empirical articles, theoretical analyses, literature reviews, and brief reports dealing with basic and applied topics in the field of group research and application. The editors construe the phrase *group dynamics* in the broadest sense – the scientific study of all aspects of groups – and publish work by investigators in such fields as psychology, psychiatry, sociology, education, communication, and business. The journal publishes articles examining groups in a range of contexts, including ad hoc groups in experimental settings, therapy groups, naturally forming friendship groups and cliques, organizational units, self-help groups, and learning groups. Theoretically driven empirical studies of hypotheses that have implications for understanding and improving groups in organizational, educational, and therapeutic settings are particularly encouraged.”

- Impact factor (2010): 0.891

FEATUORE PROFESSIONAL ASSOCIATION

Association for Integrative Studies

“The Association for Integrative Studies is an interdisciplinary professional organization founded in 1979 to promote the interchange of ideas among scholars and administrators in all of the arts and sciences on intellectual and organizational issues related to furthering integrative studies”. US based, it has an international membership. Some of the main aims of the association are as follows.

• “Promotes the interchange of ideas among scholars, teachers, administrators, and the public regarding interdisciplinarity and integration;
• Advances the exploration of key terms and seeks out new theoretical models essential to interdisciplinarity and integration;
• Sustains the development of real-world applications of interdisciplinarity and integration;
• Encourages high quality interdisciplinary curriculum development at both the undergraduate and graduate levels;
• Supports the development of strategies for strengthening the role of interdisciplinarity and integration within (and beyond) the Academy.”

The association supports a range of activities including; an annual conference, journal, newsletter, an email list, Facebook page and a website that provides a variety of resources.

• A range of resources are available via the association website: http://www.units.muohio.edu/aisorg/index.shtml
• Subscriptions to their listserv can be made via: http://www.units.muohio.edu/aisorg/Resources/interdis.shtml
• Issues in Integrative Studies journal: http://www.units.muohio.edu/aisorg/pubs/issues/toclist.shtml
