PARA EL MANEJO COSTERA INTEGRADO
DEL CONO SUR

Faculty of Science, Faculty of Engineering, Faculty of Social Sciences,
Faculty of Law and Faculty of Architecture.

What is INTEGRATED MANAGEMENT OF SEASHORES?

It is a PROCESS which implies:
INTERDISCIPLINARITY
PARTICIPATION
INTERINSTITUTIONALITY
BASED ON THE CONCEPT OF INTEGRATED MANAGEMENT

To develop and implement programmes for the protection and sustainable
development of coastal resources and environments by integrating different
levels of government, academic and scientific community as well as sectoral
and public interests.

Faculty of Science, Faculty of Humanities, Faculty of Medicine, Faculty of Dentistry

Why HUMAN BIOLOGY?

- To train professionals capable in the field of human biology, considering man in his psycho -socio- biological dimension.

- Three cognitive areas: basic - technology, health and social - artistic .

- Constitutes a reference for students as it promotes interdisciplinarity without privileging one discipline or particular area.

- Focuses on this new identity, from which to build various outreach projects , teaching, and new research lines.

HOW IS THIS WORKSHOP?

- Explores the relationship between Art and Computing.

- Seeks to generate a platform for interdisciplinary work.

- Works in the exploration of language associated with technology using different disciplines as a starting point.

- Both students and teachers, bring your own intellectual baggage and are immersed in a technological world.
